Paediatric Orthopaedics: Demystifying children's upper limb fractures

When?

Saturday March 5, 2022, 14:30 to 19:00 (dinner at 19:00-21:00)

Where?

Cathedral Hotel, 45 Kermode Street, North Adelaide

Why?

It is felt that many paediatric fractures can be comprehensively managed in general practice; there is very little guidance, however, on how to do this.

What?

This one-day interactive course will give GPs confidence to understand children's upper limb fractures, explain them to parents, manage simple fractures and refer appropriately.

Who?

Convenor:

Dr Christy Graff
Paediatric Orthopaedic Surgeon

Small group leader:

Dr Andrew Morris
Orthopaedic Surgeon
